

## BEFORE WE SPRAY

- ☐ 1. Put all food and kitchen appliances away.
- ☐ 2. Put the toilet seat up and put away toilet paper.
- ☐ 3. Put away toothbrushes, facecloths and towels.
- ☐ 4. Make sure that all windows are closed.
- ☐ 5. Pet food bowls or bedding are covered or turned over.
- ☐ 6. Pull you bedding up over your pillows.
- ☐ 7. If there are babies or toddlers, cover their toys and bedding.
- ☐ 8. Cover or remove any fish or birds.
- ☐ 9. Fish filters must be turned off for 4 hours.
- ☐ 10. Cover computer and tv screens.
- ☐ 11. We recommend not to wipe away spider webs before we arrive.
- ☐ 12. If there is a fish pond cover it and turn off the filter for 4 hours.
- ☐ 13. Please lock or tie up any dogs away from the building

## AFTER WE SPRAY

- ☐ 1. We recommend not to wash windows for at least 2 weeks as this gives a higher kill rate.
- ☐ 2. We recommend not going into the house for at least 4 hours after your house has been sprayed.
- ☐ 3. We recommend venting your house for a minimum of 30 minutes on your return.
- ☐ 4. Wipe down all kitchen surfaces where food preparation is done, with cold water.
- ☐ 5. Wipe down your computer keyboard.
- ☐ 6. Wipe down door handles.
- ☐ 7. Do not water blast at all as this will wash away the chemical outside from the pressure of the hose.
